

Deliverable 0 - Client Kick-Off Scrum Report

Akshad Ramnath, Neeraja Mehta, Ruiling Zhang, Min Han

What is the project focus/overall goal?

The city allocates money to various funds designed to offer relief and support to benefit residents and businesses in Boston. Councilor Mejia wants to understand whether these benefits are being distributed equitably and if the money the city said they were going to spend has reached and impacted the people they said it would serve. The goal is to assess whether the money is going and if it is being equitably distributed.

What type of data will you collect or be analyzing?

Relief funds, capital investments, and Census Data: Demographic information

What are the potential limitations of the project?

The data collected might be inaccurate and we might need to collect more data

Why is this project important or Why did you choose this project?

`This project is important because through the data analysis we can see how the relief funds are being distributed to the residents of Boston and if the residents that actually need the money are getting access to the funds so they can make use of them.

What are your team's next steps? (include action items/tasks)

Deciding team leads and scheduling weekly meeting

Cleaning the existing data

Analyzing the cleaned data
